

# APPENDIX 1: Location plans, including access points

Appraisal of Strategic Site Options  
Landscape Assessment for the  
Capacity to accommodate Landscape and Visual Change

March 2016

## **Introduction**

These site location plans accompany the appraisals included in the Strategic Landscape Assessment.

Vehicular access points were identified by black asterisks and pedestrian (footpath only) access points were identified by blue asterisks on the site maps. It is assumed that pedestrians will also use the vehicular access points.

No sites in the Green Belt were assessed as part of this work. Sites in the Green Belt were considered to be 'show stoppers', as it has been established, no strategic review of the Green Belt within Fylde will be undertaken when preparing the Local Plan.
