Subject: Fylde Local Plan - Health Impact Assessment

Dear Mr. Blackburn,

I am writing to you following a request from the elected members of the Lancashire County Council and the Treales Roseacre Parish Council in connection with the review of Fylde Local Plan. I understand that you are considering a range of documents which include a health impact assessment as per the following <http://www.fylde.gov.uk/council/planning-policy--local-plan-/local-development-framework/draft-publication-version-local-plan/>

Given the significance of the shale gas exploration to local communities in Fylde, I undertook a health impact assessment of the two proposed sites at Preston New Road and Roseacre Wood. The report contains a series of recommendations to various agencies that need to be addressed from a health and wellbeing perspective. The report which was presented to the County Council's Cabinet on the 6th November 2014 can be downloaded from the following link:
<http://mgintranet/documents/s51457/Report.pdf>

I notice that this report is not included in the list of documents for reviewing the Fylde Local Plan. I will be grateful if you could confirm that the report on the Potential Health Impacts of the Proposed Shale Gas Exploration Sites in Lancashire will be included in your review.

Yours sincerely,
Dr. Sakthi Karunanithi MBBS MD MPH FFPH
Director of Public Health and Wellbeing
Lancashire County Council
