

Updates to Evidence

The policies in the adopted Fylde Local Plan to 2032 (FLP32) are based on up-to-date and relevant information. This information is referred to as the evidence base. A Comprehensive List of Evidence used in the production of the FLP32 can be found on the Council’s Local Plan webpage: <https://new.fylde.gov.uk/resident/planning/planning-policy-local-plan/adopted-local-plan-to-2032/comprehensive-list-of-evidence/>

As part of its preparation for the Partial Review of the FLP32 the Council reviewed the evidence base to determine if any updates were required. A Schedule of Evidence has been produced which presents the comprehensive list of evidence used to produce the FLP32 and provides a schedule of updates required to support the Partial Review process. Most of the revisions needed are minor and have not necessitated updates to the relevant evidence. However, in some cases updates to certain evidence documents have been deemed necessary in order to ensure the changes made were based on the most recent information.

Table 1 provides a list of the documents that have been produced to support the publication and submission of the Partial Review of the FLP32.

Table 1:
