

BATTERY COLLECTION SERVICE

Please recycle the following batteries using the collection bag:

Once the battery bag is full, please place out for collection on top of the blue or brown bin. A replacement bag will be left after collection. Extra bags can be ordered from Customer Services.

GREY BIN COLLECTION SERVICE

- The grey bin is for any household waste that cannot be recycled in the blue, brown or green bins
- Please make sure the bin is not overloaded and the lid is closed
- All waste must be placed inside the bin, extra bags left alongside the grey bin will not be collected
- Rubble, hardcore, plasterboard, asbestos and electrical items cannot be collected, please take to the household tip

IMPORTANT INFORMATION

- The bins are emptied on alternate weeks. The BLUE, BROWN and GREEN bins are emptied one week and the GREY bin is emptied the following week
- Please place the bins out at the edge of your property by 7:00am on your scheduled collection day
- All waste must be placed loose inside the BLUE, BROWN and GREEN bins, please do not place recycling in bags
- Please follow this recycling guide as any bins that contain the wrong items will not be collected

FREQUENTLY ASKED QUESTIONS

Why should I recycle?

Recycling:

- saves landfill space and money
- saves energy and reduces our carbon footprint
- saves natural resources
- helps us to meet the national recycling and reuse targets
- is easy to do

I am elderly or disabled. Can I arrange help with the bins?

Yes, please contact Customer Services to arrange an assisted collection.

Where are the recycling bins collected from?

Please leave the recycling bins at the edge of your property nearest the pavement / highway by 7:00am. The recycling bins will be collected from the same location as the grey bin.

DID YOU KNOW?

- Over 60% of the rubbish that ends up in the grey bin could be recycled
- If all cans in the UK were recycled, we would need 14 million fewer grey bins
- Glass is 100% recycled and can be used again and again
- Recycled paper produces 73% less air pollution than if it was made from raw materials
- One recycled plastic bottle would save enough energy to power a 60-watt light bulb for 3 hours
